

David A. VanderNaalt
Professional Biography

David has 25 years in Information Asset Protection Management including 6 years in digital forensic investigations and a total of 35 years in Information Technology.

David comes most recently from the New York City's (NYC) Department of Information Technology & Telecommunications (DoITT) where he served as Director Citywide Technology Continuance Planning. In this role David was responsible for ensuring NYC computer systems were resilient and critical services could be maintained during crisis. David was also assigned to the NYC Office of Emergency Management (OEM) New York City Continuity of Operations Planning (COOP) project.

Immediately prior to DoITT, David served at the NYC Department of Investigation (DOI), for 7+ years, as Director; Digital Forensic Investigations and the NYC Citywide Information Security Program.

Current certifications:

- *Distinguished Fellow Ponemon Institute (D.F.PI)*
- *Certified Information Security Manager (C.I.S.M.)*
- *Associate Institute of Information Security Professionals (A.IISP)*
- *Licensed Minister (Rev.)*

David previously was with ICSA.NET (TruSecure Corp/CyberTrust) as the Managing Director Product Certification, which included Anti-Virus, IPsec, Cryptology, Firewall and Biometrics. David served as the Information Security Officer for ICSA.NET.

During its startup, David was the Information Security Officer for Genuity.Net.

David was with American Express for 11 ½ years and served in several capacities including Director of worldwide network change and problem management; and led the creation of the worldwide Information Security group, being named the 1st Corporate Information Security Officer for AMEX worldwide operations in 1989. David served on the AMEX Privacy Council and was the Technology representative to the Corporate Compliance group.

In 1982, David developed and implemented one of the first formalized corporate security programs in the country, including DRP, Change Control, physical Computer Center security and Data Security, at Central and South West Services Company in Dallas, TX.

David served in the U.S. Navy from 1968 to 1971, with a specialization in calibration of test equipment and is qualified as an expert in 4 phases of calibration. David studied Behavioral Science at Grand Canyon College before entering the U.S. Navy.
